Chairman Rep'n. Cen. Com. Cleveland, Oct. 4, 1858-td. Public Meeting this Evening.

The Hon, EDWARD WADE, Member of Con-Court House this evening.

We trust the people will fill the House. It is the evening before an important contest is to be decided, and the matters Mr. WADE will discuss have a direct bearing on the State and National issues presented. Hear Mr. Wann, and " pitch in" for a big day's work at the polls early tomorrow morning.

The Market Movement Once More.

We publish the communication of "Ontario Street" with pleasure, for we wish both sides of the question so closely affecting the interests of all our citizens should be fairly presented .-The "handsome buildings for the sale of meats" referred to, have all been erected since meat wagons were permitted to stand on Ontario St, and most of them the past season. So long as the butchers occupying them were permitted to enjoy the mono oly of cutting up and selling mines. ments by less quantity than the quarter, the meat wagons were tolerated with but slight if The Columbus Gazette publishes the follow any objections. It is only since the repeal of ing statement of Receipts and disbursements the market ordinance, since steaks, roasts, etc. for the mouth of September, 1858 can be bought at three, four, or five cents less per pound from wagons than when the cutting up monopoly existed, that retail wagons on On-Lirio street have become such a "nuisance !"-At this time the street and sidewalk in front of the "handsome buildings" is kept clear of retail meat and vegetable wagons, and the same efficiency on the part of "Ontario Street" would keep the front of his business premises free of for the same time \$41,619 54. The proceedings of the Workingmen's Meeting, so far as they bear on what they are pleased to term the "Ontario street monopoly," require but a word of comment. The meeting was not a large one, and the Central Market interest on the bank of the Cuyahoga was actively represented. The land speculators in that quarter at the expense of the city, are awake to every scheme and opportunity to manfacture public opinion and advance their private interests .-Should they ultimately succeed in forcing by ordinance the meat and other market wagons from Ontario to Pittaburgh street, they would not only measurably restore the old meat mo nopoly on the former, but would greatly discommode the market people and their custom ers of all classes. We again repeat, that the true interests of the city and citizens will be best subserved by letting well enough alone.

Democratic Financiering

Some rather startling financial disclosures have just been made in Michigan. The Detroit Aderriser states that it turns out that while the Democrats had control of the State Govern ment, they defrauded the University Fund out of \$25,550, and the Common School Fund out of \$71,703. Besides pocketing this \$97,000 of public money, they cheated the School Fund out of \$250,000, in the fraudulent sale of a see tion of School Land, containing valuable copper
